## Safety and Facility ID

### Safety panels

Pictograms, pictograms + text, wallcharts.

★ ★★ ★★ ★★ ★★ ★★ ★★

### Visual equipment control

Create lean visual equipment controls like gauge labels, fluid level indicator levels, gradient rulers, and customise them to your personal needs.

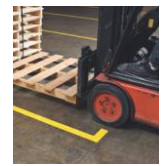

★ — ★ ★★ ★ — —

### Energy source labelling

Create your facility's energy source identification for Lockout Tagout compliance.

★ ★★ ★★ ★★ ★★ ★★ ★★

### Area and pathway marking

ToughStripe tapes, photoluminescent tapes, reflective tapes, signage etc. for floor labelling, exit and directional signage, fire alarms and extinguisher identification, for escape or evacuation routes indication...

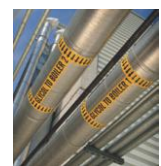

★ — ★ ★★ ★ — —

### Lean warehousing identification

Tear resistant tags, tamper-resistant labels, rough surface labels, low surface energy and powder coated surface labels, repositionable labels, in and outdoor grade facility labels, general industrial labels, etc. to be used on all kind of surfaces (smooth, rough, textured, low energy...) for shelves labelling, bin location labelling, inventory labelling, logistics labelling...

★ ★★ ★★ ★★ ★★ ★★\* ★★\*

### Pipe and valve marking

Tapes for pipes and valve marking. It stands up to grease, oil, etc. to be used on irregular, curved or rough surfaces for text and symbols printing

★ ★ ★ ★★ ★★ ★★\* ★★\*

### Food processing equipment marking

Toughwash labels: wash down resistant and metal detectable materials designed to withstand the harsh cleaning and sanitizing methods essential to the food and beverage industry.

★ ★★ ★★ ★★ — — —

## Hazardous Material Labelling

### Hazardous material labelling

Create your GHS/CLP labels using design templates that incorporate all the phrasing, pictograms and features you need for your hazardous material identification.
